

KINNEGAR BREWING

Brewery Assistant

Company Overview

Kinnegar Brewing is one of Ireland's established independent breweries. Kinnegar makes a range of high quality beers at its facility in Letterkenny, County Donegal. The brewery is a small but exciting enterprise in Ireland's flourishing food and drink sector.

Your Responsibilities

Together with the rest of the staff, you will assist in all activities pertaining to the production of our beer. You will have responsibilities across a spectrum of tasks from pulling together a grist bill through cleaning tanks to dry-hopping beers and doing transfers. You will work in all phases of the packaging process. Responsibilities in packaging area will include all aspects of operating our canning and bottling lines. You will keg draught beer.

You will be responsible for accurately recording the progress of the beer from brew day to packaging, and filing the required paperwork. You will partake in the stocktaking and ordering routine of the brewery.

You will undertake a variety of additional duties dependent upon your skill set.

Job Requirements

Kinnegar seeks a self-motivated employee who is interested in beer and willing to develop an understanding of the general brewing process. Ideally you will have relevant prior experience or third level education.

You will enjoy working with other members of staff in a challenging environment where self-motivation, enthusiasm, energy and common sense are highly prized qualities.

You will be practically-minded even though you might have no formal engineering or science background. You will be both creative and methodical in your approach to trouble shooting and problem solving. You will demonstrate an excellent level of attention to detail and a genuine interest in creating a finely-crafted, quality food product.

You will have a suitable level of physical fitness and ability for undertaking the tasks required. A full clean driver's licence is essential but a vehicle is not.

Hours of Work

The brewery's schedule is dictated by the pace of brewing, fermentation and conditioning of the product and is therefore not entirely predictable. You will normally work within standard industrial hours but will be flexible enough to undertake shifts outside these hours at times when the production timetable so dictates.

While we expect a certain level of flexibility in work schedules, in return we offer as much flexibility as is practical. We operate on a weekly rota for production staff.

This can be a full time or part-time position dependent upon the skills of the successful candidate.

Experience

Some prior experience in the brewing industry is preferable. You must demonstrate that you have a strong interest in beer and the skills required to work efficiently and accurately in a production facility where the schedule can at times be highly demanding.

Salary

We will offer an industry-standard remuneration package based on your skill level.

How to Apply

Please send us your CV and a letter or email of application. We will shortlist candidates and arrange interviews at the brewery where you will have the opportunity to learn more about the working environment and the job requirements.
